Product Designer with 5+ years shipping end-to-end digital products across enterprise, analytics, fintech and consumer domains. I own the full arc, from discovery and research through UX, UI, prototyping and developer handoff, and I optimise for outcomes: products that ship, get used and move the metrics. Comfortable with ambiguity, data-heavy problems and design systems at scale, working closely with PMs, engineers and stakeholders.

EXPERIENCE

Senior Product Designer · Exult Global

Feb 2024 - Present | India

- Lead product design across enterprise and analytics products for clients including Wheels Up, HIG Capital, Dexcom and CyberProof.
- For Wheels Up (USA), partnered directly with the VP of Business Intelligence to consolidate 50+ internal dashboards into a scalable Figma design system, cutting report-generation time by 25% across operations, sales and finance.
- Own discovery through delivery: component-based dashboards and decision tools, validated with stakeholders and shipped with engineers through iterative design sprints and a documented design system.

Product Designer · JIC IT Solutions

Jul 2023 - Feb 2024 | India

- Designed and shipped customer-facing and B2B products end to end across multiple industries.
- Jobin Arabia: an applicant tracking system for the GCC (admin and employer-facing) covering job posting, candidate pipelines and status tracking.
- Sea Arabia: a travel and experience booking platform with a vendor-management CMS.
- Bansal TMT & Bansal Hospital: loyalty and discount-management mobile apps with matching admin CMS web apps.

Product Designer · WeCreate (Mintyfusion)

Jul 2021 - Apr 2023 | Remote

- Redesigned and enhanced web and mobile products across fintech and service industries through user research, streamlined task flows and clean, intuitive UI.
- Designed SolarEnvoy, which reached #6 in Productivity on the App Store, recognised for clarity and user satisfaction.

Design Consultant · Freelance

Aug 2020 - Jul 2021 | Remote

- Delivered end-to-end UX and visual design for startups and SMEs, including Shutterup and Skillbus.
- Built cohesive design languages that improved engagement and usability across brand platforms.
